

HOST A DINNER AND RAISE VITAL FUNDS TO SUPPORT FAMILIES AFTER DISASTER

When disaster strikes, families flee their homes in search of a safer place. That can often mean an overcrowded space with no electricity.

Having somewhere dry and warm to sleep, to prepare meals and be with your family is vital for starting the long process of recovery.

As winter brings shorter days and darker nights, solar lights help families to re-establish their normal routine and can help transform a shelter into a home.
