Dominica, 2017

WHEN YOU LOOSE EVERYTHING AND REBUILD FROM SCRATCH

"When the hurricane came I was at my uncles home, we were sitting in the living room when we heard a big noise... BOOM. Everything was gone and there was no roof. All we could see was sky, we had to go and hide in the bathroom."

Hurricane Maria destroyed Blandina's home in 2017, she was left with nothing. *"These lovely people from ShelterBox came and set up a tent for me which I was so happy about. I love the tent so much as it allowed me to return home, and to my work on my vegetable patch with my tomatoes and cabbage. It helped me to be able to build my new home whilst I stayed in the tent. I am very thankful and happy for this."*

HOW WE HELPED

Blandina now has a new structure on her old plot and the garden is doing well. She still spends some nights in her tent, which is pitched right next to the tomato patch.
